DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment filed 01/31/08. Claims 1, 3, 5-8, 10 and 13-14 have been amended; claims 2, 9, 11-12 and 15 have been cancelled.

Response to Arguments

2. Applicant's arguments, see pages 12-14, with respect to the rejection of claims 1-15 under 35 USC 103(a) as being obvious over Smeets (7,020,456) in view of Lewis (6,526,506), have been fully considered and are persuasive. The rejection of claims 1-15 under 35 USC 103(a) has been withdrawn; however, the amendment has necessitated new grounds of rejection that are not based on prior art.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 3-8, 10, 13-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the

Art Unit: 2132

specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claim 1 recites "a second display step of **displaying the client terminal** on the display unit of the access point device ..." (lines 14-15) and "among **client terminals which are displayed** in the second display step" (line 21). Whereas the original filed specification discloses **displaying the information of the client terminal** on the display unit of the access point device (page 12, line 27; page 13, lines 1-6 and 18-26), it does not disclose **displaying the client terminal**. Therefore, these limitations are considered new matter. Claims 13 and 14 are rejected on the same basis as claim 1. Claims that are not specifically addressed are rejected by virtue of their dependency

Allowable Subject Matter

5. Subject to the above 112, 1st paragraph rejection, claims 1, 3-8, 10, 13-14 are allowable over the prior art of record.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent App. Publication No. 2004/0078598 to Barber et al.

Art Unit: 2132

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
